

4CH H.264 Video Encoder WJ-GXE500

4CH H.264 Real-time Network Video Encoder

Key Features

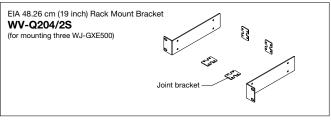

- Full frame H.264 transmission for each 4 channels
- Dual streams of H.264 (High profile) and JPEG at VGA / D1 image
- Motion adaptive interlace/progressive conversion allows every frame to be clear even when the subject is moving.
- Compensates the picture degradation caused by long-distance cable maintaining clear picture
- · Coaxial communication ensures the control of i-PRO PTZ cameras via coaxial cable.
- Open command conversion table for RS-485 ensures the control of various manufacture's PTZ camera.
- SD/SDHC Memory card slot for manual recording, alarm recording, and backup upon network failure (JPEG)
- Camera title display: Up to 16 alphanumeric characters embedded in the image
- Full duplex bi-directional audio allows interactive communication.
- PoE. The power will be supplied by simply connecting a LAN cable. (IEEE802.3af compliant)
- Small size. And can be installed into the rack with mounting brackets. (Option)
- Alarm sources including 3 terminal input, VMD, camera site alarm, video loss, and TCP alarm notification
- VMD (Video Motion Detector) with 4 programmable detection
- Internet mode: H.264/MPEG-4 images can be transmitted by over HTTP protocol.

- Multi-language GUI and setup menu: English, French, Italian, Spanish, German, Russian (PAL) / English, French (NTSC)
 - * Installation required except for English
- IPv4/IPv6 protocol supported

Standard Accessories

- CD-ROM*1 Installation Guide • Code Label*2
- *1 The CD-ROM contains the operating instructions (PDFs) and different kinds of tool software programs.
 *2 This label may be required for network management. The network administrator shall
- retain the code label.

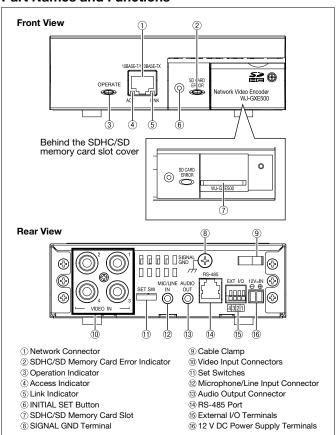

Optional Accessory
