For more detailed instructions, refer to the Operating Instructions on the CD-ROM.

• Please read these instructions before operating your set and retain them for future reference.
• Illustrations and screens in this Operating Instructions are images for illustration purposes, and may be different from the actual ones.
• Descriptive illustrations in this Operating Instructions are created mainly based on the 65-inch model.
**Important Safety Instructions**

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet. ([65-inch model only])
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments / accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart / apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15) To prevent electric shock, ensure the grounding pin on the AC cord power plug is securely connected. ([65-inch model only])
FCC STATEMENT

This equipment has been tested and found to comply with the limits for a class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC CAUTION:
To assure continued compliance, follow the attached installation instructions and use only the provided power supply cord. Any changes or modifications not expressly approved by Panasonic Corp. of North America could void the user’s authority to operate this device.

Supplier’s Declaration of Conformity
Model No.  
TH-65SF2U, TH-55SF2U, TH-49SF2U, TH-43SF2U
Responsible Party:
Panasonic Corporation of North America
Two Riverfront Plaza, Newark, New Jersey 07102-5490
Contact Source:
Panasonic System Solutions Company of North America
1-877-655-2357
General Contact:
http://shop.panasonic.com/support

This device complies with Part 15 of the FCC Rules and all applicable IC RSS standards. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CANADIAN NOTICE:
This Class A digital apparatus complies with Canadian ICES-003.

WARNING:
• For permanently connected equipment, a readily accessible disconnect device shall be incorporated in the building installation wiring.
• For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible.

Note:
Image retention may occur. If you display a still picture for an extended period, the image might remain on the screen. However, it will disappear when a general moving picture is displayed for a while.

Trademark Credits
• Microsoft, Windows and Internet Explorer are the registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries.
• Mac, macOS and Safari are the trademarks of Apple Inc. registered in the United States and other countries.
• PJLink is a registered or pending trademark in Japan, the United States, and other countries and regions.
• HDMI, High-Definition Multimedia Interface and the HDMI Logo are trademarks or registered trademarks of HDMI Licensing Administrator, Inc. in the United States and other countries.

Important Safety Notice

**WARNING**

1) To prevent damage which may result in fire or shock hazard, do not expose this appliance to dripping or splashing.

Do not place containers with water (flower vase, cups, cosmetics, etc.) above the set. (including on shelves above, etc.)

No naked flame sources, such as lighted candles, should be placed on / above the set.

2) To prevent electric shock, do not remove cover. No user serviceable parts inside. Refer servicing to qualified service personnel.

3) Do not remove the earthing pin on the power plug. This apparatus is equipped with a three pin earthing-type power plug. This plug will only fit an earthing-type power outlet. This is a safety feature. If you are unable to insert the plug into the outlet, contact an electrician.

Do not defeat the purpose of the earthing plug.

(! 65-inch model only)

4) To prevent electric shock, ensure the earthing pin on the AC cord power plug is securely connected.

(! 65-inch model only)

**CAUTION**

This appliance is intended for use in environments which are relatively free of electromagnetic fields.

Using this appliance near sources of strong electromagnetic fields or where electrical noise may overlap with the input signals could cause the picture and sound to wobble or cause interference such as noise to appear.

To avoid the possibility of harm to this appliance, keep it away from sources of strong electromagnetic fields.

**WARNING:**

This equipment is compliant with Class A of CISPR32. In a residential environment this equipment may cause radio interference.

**IMPORTANT INFORMATION**

If a display is not positioned in a sufficiently stable location, it can be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Using cabinets or stands recommended by the manufacturer of the display.
- Only using furniture that can safely support the display.
- Ensuring the display is not overhanging the edge of the supporting furniture.
- Not placing the display on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the display to a suitable support.
- Not standing the displays on cloth or other materials placed between the display and supporting furniture.
- Educating children about the dangers of climbing on furniture to reach the display or its controls.
IMPORTANT: THE MOULDED PLUG FOR YOUR SAFETY, PLEASE READ THE FOLLOWING TEXT CAREFULLY.

This display is supplied with a moulded three pin mains plug for your safety and convenience. A 10 amp fuse is fitted in this plug. Shall the fuse need to be replaced, please ensure that the replacement fuse has a rating of 10 amps and that it is approved by ASTA or BSI to BS1362.

Check for the ASTA mark 🟢 or the BSI mark 🟢 on the body of the fuse.

If the plug contains a removable fuse cover, you must ensure that it is refitted when the fuse is replaced.

If you lose the fuse cover the plug must not be used until a replacement cover is obtained.

A replacement fuse cover can be purchased from your local Panasonic dealer.

Do not cut off the mains plug.

Do not use any other type of mains lead except the one supplied with this display.

The supplied mains lead and moulded plug are designed to be used with this display to avoid interference and for your safety.

If the socket outlet in your home is not suitable, get it changed by a qualified electrician.

If the plug or mains lead becomes damaged, purchase a replacement from an authorized dealer.

WARNING: — THIS DISPLAY MUST BE EARTHEO

How to replace the fuse.

Open the fuse compartment with a screwdriver and replace the fuse.
Safety Precautions

WARNING

Setup

This LCD Display is for use only with the following optional accessories.

Use with any other type of optional accessories may cause instability which could result in the possibility of injury.

Securely install the pedestal, an optional accessory. Ask an authorized dealer for installation.

• Pedestal
  65-inch model  TY-ST55PE9
  55-inch model  TY-ST55PE9
  49-inch model  TY-ST43PE9

• Digital Interface Box
  ET-YFB100

• DIGITAL LINK Switcher
  ET-YFB100

• Early Warning Software
  ET-SWA100 series*1

• Video Wall Manager
  TY-VUK10*2

*1: Suffix of the part number may differ depending on the license type.
*2: Supports Ver1.7 or later.

Notes

• The part number of the optional accessories are subject to change without notice.

When installing the pedestal, read the operating instructions supplied with it carefully and install properly. Also, always use the overturn prevention accessories. We are not responsible for any product damage, etc. caused by failures in the installation environment for the pedestal or wall-hanging bracket even during the warranty period.

Small parts can present choking hazard if accidentally swallowed. Keep small parts away from young children. Discard unneeded small parts and other objects, including packaging materials and plastic bags/sheets to prevent them from being played with by young children, creating the potential risk of suffocation.

Do not place the Display on sloped or unstable surfaces, and ensure that the Display does not hang over the edge of the base.

• The Display may fall over or tip over.

Install this unit at a location with minimal vibration and which can support the weight of the unit.

• Dropping or falling of the unit may cause injury or malfunction.

Do not place any objects on top of the Display.

Transport only in upright position!

• Transporting the unit with its liquid crystal panel facing upright or downward may cause damage to the internal circuitry.

Ventilation should not be impeded by covering the ventilation openings with items such as newspapers, table cloths and curtains.

For sufficient ventilation, see page 9.

Caution - For use only with UL Listed Wall Mount Bracket with minimum weight/load 29.8 kg (65.7 lbs).

When installing the Display vertically, be sure that the Power Indicator comes to the upper side.

Power indicator

• Heat is generated and it may cause fire or damage to the Display.

Cautions for Wall or Pedestal Installation

• The installation should be performed by an installation professional. Installing the Display incorrectly may lead to an accident that results in death or serious injury. Use the optional Pedestal. (see page 6)

• When installing on a wall, a wall hanging bracket that conforms to VESA standards must be used.

  VESA 400 × 400
(see page 9)

• Before installation, be sure to check if the mounting location has enough strength to support the weight of the LCD display and the wall hanging bracket for anti drop.

• If you terminate the use of the Display on the Wall or Pedestal, ask a professional to remove the Display as soon as possible.

• When mounting the Display on the wall, prevent the mounting screws and power cable from contacting metal objects inside the wall. An electric shock may occur if they contact metal objects inside the wall.

Do not place the display where it may be affected by salt or corrosive gas.

• Doing so may cause the display to fall due to corrosion. Also, the unit may malfunction.

Do not install the product to a place where the product is exposed to direct sunlight.

• If the unit is exposed to direct sunlight even indoors, the temperature rise of the liquid crystal panel may cause malfunction.
When using the LCD Display

The Display is designed to operate on 110 - 127 or 220 - 240 V AC, 50/60 Hz.

Do not cover the ventilation holes.
• Doing so may cause the Display to overheat, which can cause fire or damage to the Display.

Do not stick any foreign objects into the Display.
• Do not insert any metal or flammable objects into the ventilations holes or drop them onto the Display, as doing so can cause fire or electric shock.

Do not remove the cover or modify it in any way.
• High voltages which can cause severe electric shocks are present inside the Display. For any inspection, adjustment and repair work, please contact your local Panasonic dealer.

Ensure that the mains plug is easily accessible.
The mains plug shall be connected to a mains socket outlet with a protective earthing connection.

(65-inch model only)

Do not use any power supply cord other than that provided with this unit.
• Doing so may cause short-circuit, generates heat, etc., which could cause electric shock or fire.

Do not use the supplied power supply cord with any other devices.
• Doing so could cause electric shock or fire.

Securely insert the power supply plug as far as it will go.
• If the plug is not fully inserted, heat may be generated which could cause fire. If the plug is damaged or the wall socket is loose, they shall not be used.
• Make sure that the connector is locked on both the left and right sides. (65-inch model only)

Do not handle the power supply plug with wet hands.
• Doing so may cause electric shocks.

Do not do anything that may damage the power cable. When disconnecting the power cable, pull on the plug body, not the cable.
• Do not damage the cable, make any modifications to it, place heavy objects on top of it, heat it, place it near any hot objects, twist it, bend it excessively or pull it. To do so may cause fire and electric shock. If the power cable is damaged, have it repaired at your local Panasonic dealer.

Do not touch the power supply cord or the plug directly by hand when they are damaged.
• Electric shock could occur.

Do not remove covers and NEVER modify the Display yourself.
• Do not remove the rear cover as live parts are accessible when it is removed. There are no user serviceable parts inside. (High-voltage components may cause serious electrical shock.)
• Have the Display checked, adjusted, or repaired at your local Panasonic dealer.

Keep the AAA/R03/LR03 batteries (supplied) out of reach of children. If accidentally swallowed, it will be harmful to the body.
• Please contact a doctor immediately in case you doubt that the child may have swallowed it.

If the Display is not going to be used for any prolonged length of time, unplug the power supply plug from the wall outlet.

Picture noise may occur if you connect / disconnect the cables connected to the input terminals you are currently not watching, or if you turn the power of the video equipment on / off, but it is not a malfunction.

To prevent the spread of fire, keep candles or other open flames away from this product at all times.
CAUTION

If problems or malfunction occur, stop using immediately.

■ If problems occur, unplug the power supply plug.
  • Smoke or an abnormal odour come out from the unit.
  • No picture appears or no sound is heard, occasionally.
  • Liquid such as water or foreign objects got inside the unit.
  • The unit has deformed or broken parts.
If you continue to use the unit in this condition, it could result in fire or electric shock.
  • Turn the power off immediately, unplug the power supply plug from the wall outlet, and then contact the dealer for repairs.
  • To cut off the power supply to this Display completely, you need to unplug the power supply plug from the wall outlet.
  • Repairing the unit yourself is dangerous, and shall never be done.
  • To enable to unplug the power supply plug immediately, use the wall outlet which you can reach easily.

■ Do not touch the unit directly by hand when it is damaged.
Electric shock could occur.

■ When using the LCD Display
At least 2 people are required to carry or unpack this unit.
  • If this is not observed, the unit may drop, resulting in injury.
Be sure to disconnect all cables and overturn prevention accessories before moving the Display.
  • If the Display is moved while some of the cables are still connected, the cables may become damaged, and fire or electric shock could result.
Disconnect the power supply plug from the wall socket as a safety precaution before carrying out any cleaning.
  • Electric shocks can result if this is not done.
Clean the power cable regularly to prevent it becoming dusty.
  • If dust built up on the power cord plug, the resultant humidity can damage the insulation, which could result in fire. Pull the power cord plug out from the wall outlet and wipe the mains lead with a dry cloth.
Do not step on, or hang from the display or the Pedestal.
  • They might tip over, or might be broken and it may result in injury. Pay special attention to the children.

Do not reverse the polarity (+ and -) of the battery when inserting.
  • Mishandling the battery may cause its explosion or leakage, resulting in fire, injury or damage to surrounding properties.
  • Insert the battery correctly as instructed. (see page 12)

Do not use batteries with the outer cover peeling away or removed.
(The outer cover is attached to the battery for safety. It must not be removed. Doing so may cause short circuits.)
  • Mishandling the batteries may cause the batteries to short circuit, resulting in fire, injury or damage to surrounding properties.

Remove the batteries from the remote control transmitter when not using for a long period of time.
  • The battery may leak, heat, ignite or burst, resulting in fire or damage to surrounding properties.

Do not burn or breakup batteries.
  • Batteries must not be exposed to excessive heat such as sunshine, fire or the like.

Do not turn the Display upside down.
Do not position the unit with its liquid crystal panel facing upright.
Precautions for use

Cautions when installing

Do not set up the Display outdoors.
- The Display is designed for indoor use.

Install this unit at a location which can support the weight of the unit.
- Use the installation bracket that conforms to VESA standards.

Environmental temperature to use this unit
- When using the unit where it is below 1 400 m (4 593 ft) above sea level: 0 °C to 40 °C (32 °F to 104 °F)
- When using the unit at high altitudes (1 400 m (4 593 ft) and higher and below 2 800 m (9 186 ft) above sea level): 0 °C to 35 °C (32 °F to 95 °F)

Do not install the unit where it is 2 800 m (9 186 ft) and higher above sea level.
- Failure to do so may shorten the life of the internal parts and result in malfunctions.

We are not responsible for any product damage, etc. caused by failures in the installation environment even during the warranty period.

Required space for ventilation
- When using the pedestal, leave a space of 10 cm (3 15/16") or more at the top, left and right, and 5 cm (1 31/32") or more at the rear, and also keep the space between the bottom of the display and the floor surface.

If using some other setting-up method (wall-hanging, etc.), follow the manual of it. (If there is no specific indication of installation dimension in the installation manual, leave a space of 10 cm (3 15/16") or more at the top, bottom, left and right, and 5 cm (1 31/32") or more at the rear.)

Minimum distance:

- Operation of this unit is guaranteed up to an ambient temperature of 40 °C (104 °F). When installing the unit in a case or chassis, be sure to provide adequate ventilation with a cooling fan or ventilation hole so that the surrounding temperature (inside the case or chassis) including the temperature of the front surface of the liquid crystal panel can be kept at 40 °C (104 °F) or less.

<table>
<thead>
<tr>
<th>Screw pitch for installation</th>
<th>Depth of screw hole</th>
<th>Screw (quantity)</th>
</tr>
</thead>
<tbody>
<tr>
<td>400 mm × 400 mm</td>
<td>10 mm</td>
<td>M6 (4)</td>
</tr>
</tbody>
</table>

Be careful of the movable structure of the power indicator and remote control sensor.
- As factory default, the power indicator and remote control sensor are stored in the main unit. For normal use, pull out the remote control sensor from the edge side of the main unit by operating the lever on the rear panel. Depending on the setup condition such as when using the multi display, store the remote control sensor in the main unit. (see page 17)

Do not grab the liquid crystal panel.
- Do not forcibly press the liquid crystal panel, or push it with a pointed object. Applying a strong force to the liquid crystal panel will cause unevenness of the screen display, resulting in malfunction.

Depending on the temperature or humidity conditions, uneven brightness may be observed. This is not a malfunction.
- This unevenness will disappear while applying current continuously. If not, consult the distributor.

Notes on Using Wired LAN

When setting up the Display at a place, where electric statistic occurs often, take a sufficient antistatic measure before start using.
- When the Display is used at a location, where static electricity occurs often, such as on a carpet, a wired LAN or DIGITAL LINK communication is disconnected more often. In that case, remove static electricity and the noise source that may cause problems with an antistatic mat, and re-connect the wired LAN or DIGITAL LINK.
- In rare cases, the LAN connection is disabled due to static electricity or noise. In that case, turn off the power of the Display and the connected devices once and then re-turn on the power.

The Display may not work properly due to strong radio wave from the broadcast station or the radio.
- If there is any facility or equipment, which outputs strong radio wave, near the installation location, set up the Display at a location sufficiently far from the source of the radio wave. Or, wrap the LAN cable connected to the DIGITAL LINK / LAN terminal by using a piece of metal foil or a metal pipe, of which is grounded at both ends.
Request Regarding Security

When using this product, take safety measures against the following incidents.

- Personal information being leaked via this product
- Unauthorized operation of this product by a malicious third party
- Interfering or stopping of this product by a malicious third party

Take sufficient security measures.

- Set a password for the LAN control and restrict the users who can log in.
- Make your password difficult to guess as much as possible.
- Change your password periodically.
- Panasonic Corporation or its affiliate companies will never ask for your password directly. Do not divulge your password in case you receive such inquiries.
- The connecting network must be secured by a firewall, etc.
- When disposing the product, initialize the data before disposing. [Shipping]

Cleaning and maintenance

First, remove the mains plug from the mains socket.

Gently wipe the surface of the liquid crystal panel or cabinet by using a soft cloth to remove dirt.

- To remove stubborn dirt or fingerprints on the surface of the liquid crystal panel, dampen a cloth with diluted neutral detergent (1 part detergent to 100 parts water), wring out the cloth firmly, and then wipe away the dirt. Finally, wipe away all the moisture with a dry cloth.
- If water droplets get inside the unit, operating problems may result.

Note

- The surface of the liquid crystal panel is specially treated. Do not use a hard cloth or rub the surface too hard, otherwise this may cause scratches on the surface.

Usage of a chemical cloth

- Do not use a chemical cloth for the liquid crystal panel surface.
- Follow the instructions for the chemical cloth to use it for the cabinet.

Avoid contact with volatile substances such as insect sprays, solvents and thinner.

- This may degrade surface quality or cause peeling of the paint. Furthermore, do not leave it in contact with a rubber or PVC substance for a long time.

Disposal

When disposing the product, ask your local authority or dealer about the correct methods of disposal.

(Attention)
  ● Store small parts in an appropriate manner, and keep them away from young children.
  ● The part numbers of accessories are subject to change without notice. (The actual part number may differ from the ones shown above.)
  ● In case you lost accessories, please purchase them from your dealer. (Available from the customer service)
  ● Dispose the packaging materials appropriately after taking out the items.
Remote Control Batteries

1. Pull and hold the hook, then open the battery cover.

2. Insert batteries - note correct polarity (+ and -).

3. Replace the cover.

Helpful Hint
- For frequent remote control users, replace old batteries with Alkaline batteries for longer life.

Precaution on battery use

Incorrect installation of the batteries can cause battery leakage and corrosion that will damage the remote control transmitter.

Disposal of batteries should be in an environment-friendly manner.

Observe the following precaution:
1. Batteries shall always be replaced as a pair. Always use new batteries when replacing the old set.
2. Do not combine a used battery with a new one.
3. Do not mix battery types (example: “Zinc Carbon” with “Alkaline”).
4. Do not attempt to charge, short-circuit, disassemble, heat or burn used batteries.
5. Battery replacement is necessary when remote control acts sporadically or stops operating the Display set.
6. Do not burn or breakup batteries.
7. Batteries must not be exposed to excessive heat such as sunshine, fire or the like.

Kensington security

The security slot of this unit is compatible with the Kensington security slot.
Connections

AC cord connection and fixing / Cable fixing

65-inch model

Back of the unit

AC cord fixing

Plug the connector into the display unit.
Plug the connector until it clicks.

Note

● Make sure that the connector is locked on both the left and right sides.

Unplug the AC cord

Unplug the connector pressing the two knobs.

Note

● When disconnecting the AC cord, be absolutely sure to disconnect the AC cord plug at the socket outlet first.
● The supplied AC cord is for this unit exclusive use. Do not use this for other purposes.

Cable fixing

Note

● 3 clampers are supplied with this unit. Fix the cables at 3 locations using the holes for clamps as shown below.

If you need more clamps, purchase them from your dealer. (Available from the customer service)

1. Attach the clamper

Insert the clamper in a hole.

To remove from the unit:

Keep pushing both side snaps and pull out the clamper.

2. Bundle the cables

Set the tip in the hooks and tighten.

To loosen:

Keep pushing the knob and pull out the tip.

hole

AC cord (supplied)

1

2

snaps

hooks
Insert the AC cord all the way until fully seated to the back side of the unit.

Insert the plug until the lines inside are not visible.

**Note**
- When disconnecting the AC cord, be absolutely sure to disconnect the AC cord plug at the socket outlet first.
- The supplied AC cord is for this unit exclusive use. Do not use this for other purposes.

---

**Cable fixing**

**Note**
- 3 clamps (large: 2, small: 1) are supplied with this unit. Fix the cables using clamps (Fixation type) appropriate for each cable as shown below.
- If you need more clamps, purchase them from your dealer. (Available from the customer service)

**Attaching positions of the clamps**

1. For AC cord: clamper (small)
2. For signal cable: clamper (large) × 2

1. **Attach the clamper**

   **Note**
   - Wipe off dirt, such as dust, water and oil on the attachment surface, and affix the clamper on the attachment surface by pushing it firmly.
   - Once the clamper is affixed, it cannot be reused. Be sure to confirm the attaching position before affixing it.

   Remove the tape at the back, and affix the clamper on the flat surface.

2. **Bundle the cables**

   Pass the tip of the band to the hooks. Then pull and hook it on the knob.

**To loosen:**

Remove the band from the knob, and pull out the band tip.
1 **IR IN, IR OUT**: Infrared Signal Input / Output Terminal
   Use this when operating more than one display with one remote control.

2 **SERIAL IN, SERIAL OUT**: SERIAL Input / Output Terminal
   Control the Display by connecting to PC.

3 **AUDIO OUT**: Analogue Audio Output Terminal
   Connect to audio equipment with analogue audio input terminal.

4 **AV IN**: Composite Video / Audio Input Terminal
   Connect to video equipment with Composite signal output.
   Audio input is shared by AV IN, DVI-D IN and PC IN.

5 **USB**: USB Terminal
   Connect the USB memory to use “USB media player” or “Memory viewer”. Also, this can be used to supply power of up to 5V/1A to an external device when the picture is displayed.

6 **DVI-D IN, DVI-D OUT**: DVI-D Input / Output Terminal
   Connect to video equipment with DVI-D output. Also, when displaying the picture by daisy chaining multiple displays, connect to the other display (DVI-D OUT).
   The DVI-D output function is enabled only for the DVI input.
   Note this is not output if the HDMI or DIGITAL LINK input is selected.

7 **AV IN (HDMI 1, HDMI 2)**: HDMI Input Terminal
   Connect to video equipment such as VCR or DVD player, etc.

8 **DIGITAL LINK / LAN**: DIGITAL LINK / LAN Terminal
   Control the Display by connecting to Network. Alternatively, connect to a device that sends video and audio signals via the DIGITAL LINK terminal.

9 **PC IN**: PC Input Terminal
   Connect to video terminal of PC, video equipment with “YPbPr / YCbCr” or “RGB” output.

10 **LAN**: LAN Terminal
   Control the Display by connecting to Network.

*1: TH-65SF2E
Before connecting cables, carefully read the operating instructions for the external device to be connected.

Turn off the power of all devices before connecting cables.

Take note of the following points before connecting the cables. Failure to do so may result in malfunctions.

- When connecting a cable to the unit or a device connected to the unit itself, touch any nearby metallic objects to eliminate static electricity from your body before performing work.
- Do not use unnecessarily long cables to connect a device to the unit or to the unit body. The longer the cable, the more susceptible to noise it becomes. Since using a cable while it is wound makes it act like an antenna, it is more susceptible to noise.
- When connecting cables, insert them straight into the connecting terminal of the connecting device so that the ground is connected first.

Acquire any cable necessary to connect the external device to the system that is neither supplied with the device nor available as an option.

If the outer shape of the plug of a connection cable is large, it may come in contact with the periphery such as a back cover or the plug of an adjacent connection cable. Use a connection cable with the suitable plug size for the terminal alignment.

When connecting the LAN cable with plug cover, be aware that the cover may come in contact with the back cover and it may be difficult to disconnect.

If video signals from video equipment contain too much jitter, the images on the screen may wobble. In this case, a time base corrector (TBC) must be connected.

When the sync signals output from PC or video equipment are disturbed, for example, when changing settings of video output, the colour of the video may be disturbed temporarily.

The unit accepts Composite video signals, YCbr/ YPbrPr signals (PC IN), analogue RGB signals (PC IN) and digital signals.

Some PC models are not compatible with the unit.

Use cable compensator when you connect devices to the unit using long cables. Otherwise the image may not display properly.
Identifying Controls

Main unit

- Slide the lever on the rear panel to eject the power indicator and remote control sensor.
- To store them, slide the same lever, or directly push in the bottom surface of the remote control sensor.

\[(\text{Note})\]
- For normal use, pull out the power indicator and remote control sensor from the edge side of the main unit by operating the lever on the rear panel. Depending on the setup condition such as when using the multi display, store them in the main unit.

1 Power Indicator / Remote control sensor

The Power Indicator will light.

When the power of the unit is ON (Main Power On / Off button: ON)
- Picture is displayed: Green
- Power OFF (standby) with remote control:
  - When [Network control] is set to [Off]: Red
  - When [Network control] is set to [On]: Orange (Red/Green)
- Power OFF with “Power management” function: Orange (Red/Green)

When the power of the unit is OFF (Main Power On / Off button: OFF): No light

\[(\text{Note})\]
- Even if the display unit is turned off with the power indicator off, some of the circuits are in power-on status.
- When the power indicator is orange, power consumption during standby is generally larger than that of when the power indicator is red.

1 External Input Terminal
- Connects to video equipment, PC, etc. (see page 15)

2 <Main Power On / Off button>
- Turns the power On / Off.

3 <INPUT (Unit)>
- Selects the connected device.

4 <MENU (Unit)>
- Displays the menu screen.

5 <+ (Unit)> / <- (Unit)>
- Adjusts the volume.
- On the main screen, switches settings or adjusts settings level.

6 < (Unit) / < ▼ (Unit)>
- Selects the setting item on menu screen.

7 <ENTER (Unit)>
- Configures the item on menu screen.
- Switches aspect mode.

8 Built-in speakers

- Sound is output backward and upward.

<table>
<thead>
<tr>
<th>Model</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>65-inch</td>
<td>Sound is output backward and upward.</td>
</tr>
<tr>
<td>55-inch</td>
<td>Sound is output backward.</td>
</tr>
<tr>
<td>49-inch</td>
<td>Sound is output backward.</td>
</tr>
</tbody>
</table>

\[(\text{Note})\]
- To output sound from the built-in speakers of the unit, be sure to set [Output select] in the [Sound] menu to [SPEAKERS].
Remote Control Transmitter

1 Standby (ON/OFF) button (\(\hat{O}/\))
   - Turns the power on or off when the Display is turned on at the <Main Power On / Off button>. (see page 19)

2 POSITION

3 SETUP

4 ENTER / Cursor buttons (\(\uparrow\) \(\downarrow\) \(\leftarrow\) \(\rightarrow\))
   - Used to operate the menu screens.

5 ZOOM
   Enters the digital zoom mode.

6 DEFAULT
   - Resets the settings of picture, sound, etc., to defaults.

7 MUTE
   - Sound mute on / off.

8 ASPECT
   - Adjusts the aspect.

9 VOL + / VOL -
   - Adjusts sound volume level.

10 AUTO SETUP
   - Automatically adjusts the position/size of the screen.

11 INPUT
   - Switches input to display on the screen.

12 PICTURE

13 SOUND

14 RECALL
   - Displays the current setting status of Input mode, Aspect mode, etc.

15 RETURN
   - Used to return to the previous menu.

16 FUNCTION
   - Displays [Function button guide].

17 OFF TIMER
   - Switches to stand-by after a fixed period.

18 Numeric buttons (1 - 6)
   - Used as shortcut buttons by assigning frequently used operations.

19 Signal emission

   (Note)

   - In this manual, buttons of the remote control and the unit are indicated as < >.
   (Example: <INPUT>.)
   The operation is mainly explained indicating the remote control buttons but you can also operate with the buttons on the unit when there are the same buttons.
Basic Controls

1 Connect the AC cord plug to the Display.
(see page 13)

2 Connect the plug to the socket outlet.

Note
- Main plug types vary between countries. The power plug shown at left may, therefore, not be the type fitted to your set.
- When disconnecting the AC cord, be absolutely sure to disconnect the AC cord plug at the socket outlet first.
- The settings may not be saved if the power plug is disconnected immediately after changing settings with on-screen menu. Disconnect the power plug after a enough period of time. Or, disconnect the power plug after turning the power off with the remote control, RS-232C control or LAN control.

3 Press the <Main Power On / Off button> on the unit to turn the set on:
Power-On.
- Power Indicator: Green (Picture is displayed.)
- When the power of the unit is ON, remote control operation is possible.

To turn the power ON/OFF with the remote control
Press the <Standby (ON/OFF) button> to turn the Display on.
- Power Indicator: Green (Picture is displayed.)
Press the <Standby (ON/OFF) button> to turn the Display off.
- Power Indicator: Red (standby)
Press the <Main Power On / Off button> on the unit to turn the unit off, when the power of the unit is turned on or in standby mode.

Note
- During operation of the “Power management” function, the power indicator turns orange in the power off state.
- After the power plug is disconnected, the power indicator may remain lit for a while. This is not a malfunction.

Operate pointing the remote control directly at the unit’s Remote Control Sensor.

Note
- For normal use, pull out the remote control sensor from the edge side of the main unit by operating the lever on the rear panel. (see page 17)
- Do not put an obstacle between the remote control sensor of the main unit and the remote control.
- Operate the remote control in front of the remote control sensor or from the area where the sensor can be seen.
- When directly aiming the remote control at the remote control sensor of the main unit, the distance from the front of remote control sensor should be approx. 7 m or less. Depending on the angle, the operation distance may be shorter.
- Do not subject the remote control sensor of the main unit to the direct sunlight or strong fluorescent light.
When the Unit is turned on for the first time
Following screen will be displayed.
1 Select the language with ▲▼ and press <ENTER>.

Note
• Once the items are set, the screens won’t be displayed when switching on the unit next time.
  Each item can be reset in the following menus.
  [OSD language]
  [Display orientation]

Power ON message
The following message may be displayed when turning the unit power ON:

No activity power off Precautions

‘No activity power off’ is enabled.

When [No activity power off] in the [Setup] menu is set to [Enable], a warning message is displayed every time the power is turned ON.

“Power management” Information

Last turn off due to ‘Power management’.

When “Power management” is functioned, an information message is displayed every time the power is turned ON.

These message displays can be set with the following menu:
  • [Options] menu
  Power on message(No activity power off)
  Power on message(Power management)

PANASONIC PROFESSIONAL DISPLAY
Limited Warranty

Panasonic System Solutions Company of North America (referred to as “the Panasonic”) will repair the Professional Video product (the “Product”) and its accessories as defined in the attached table, with new or refurbished parts, free of charge in the continental USA, during the applicable warranty coverage period from the original date of purchase in the event of a defect in materials or workmanship as follows: On-Site, carry-in, or mail-in service within the continental USA may be obtained during the warranty period by contacting Panasonic’s Technical Support Center at the following toll free number 855-772-8324 or via e-mail; ProDisplaySupport@us.panasonic.com. In case of mail-in service the customer is responsible for the cost of delivering of the Product to Panasonic’s facility, while Panasonic will pay for the return transportation of the repaired Product to the customer. For out of warranty Product units submitted for repairs or for in warranty units submitted by customers outside of the continental USA, shipping arrangements and cost (both ways) are the customer’s responsibility. Panasonic will also not be responsible for any costs associated with determining the source of system problems or for removing and installing the faulty Product.

This warranty is extended only to the original purchaser and is nontransferable. A purchase receipt or other proof of date of original purchase will be required before warranty service is rendered. Whenever the date of original purchase cannot be satisfactorily determined, the date of manufacture of the unit will be deemed to be the effective date of the warranty. Panasonic reserves the right to audit and reject any warranty claim that cannot be substantiated. This warranty only covers failures due to defects in materials or workmanship which occur during normal use of the Product.

The warranty DOES NOT cover damage to the display and its components which occur in shipping; failures which are caused by products not supplied by Panasonic; failures which result from accident, misuse, abuse, neglect, mishandling, misapplication, alteration, modification, faulty installation, setup adjustments, improper antenna, inadequate signal pickup, maladjustment of user controls, improper operation, power line surge, improper voltage supply, lightning damage, smoke or chemical vapors contamination, air conditioning, humidity control or other environmental conditions; failure to maintain the product in accordance with the applicable Operating Instructions; service by anyone other than an authorized repair facility; damage that is attributable to acts of violence, war, acts of God or force majeure.

The warranty does not cover damage which occurs to the display or its components caused by excessive continual usage which goes beyond the operational time described in the Operating Instructions.

The warranty does not cover units of which the model and serial number label has been defaced, modified, tampered with or removed. The warranty does not cover consumable parts.

**LIMITS AND EXCLUSIONS**

PANASONIC SHALL NOT BE LIABLE FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR SPECIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF DATA, LOSS OF PROFIT, LOSS OF REVENUE, OR LOSS OF BUSINESS OR GOODWILL, SUFFERED BY ANY PERSON, AND RESULTING FROM THE USE OF THIS PANASONIC PROFESSIONAL DISPLAY PRODUCT, OR ARISING OUT OF ANY BREACH OF THIS WARRANTY. ALL EXPRESS WARRANTIES SPECIFIED ABOVE ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS, IMPLIED OR STATUTORY, INCLUDING BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you.

If you have a problem with this product that is not handled to your satisfaction, then write the Consumer Affairs Department at the Panasonic’s address indicated above.

WARRANTY COVERAGE PERIOD EXCEPTIONS

Panasonic Canada Inc. (also known as PCI) warrants this product to be free of defects in material and workmanship under normal use during the applicable warranty coverage period described below. PCI ... defective. However, the product must be purchased and serviced in Canada. The product or part that shows evidence of defect must be delivered prepaid or carried in to an authorized Panasonic Broadcast Service Center. This warranty does not cover shipping costs.

The warranty coverage period is one year for both parts and labour beginning with the date of original end user purchase, subject to the exceptions as stated below. Repaired or replacement parts supplied during the warranty coverage period carry the unexpired portion of the original warranty coverage period. Proof of product purchase is a condition of warranty service. The owner must produce the product purchase receipt or other satisfactory evidence of date of original purchase.

This warranty does not apply to external appearance items, such as handles, knobs, safety windows, etc. This warranty does not cover replacements or repairs necessitated by loss or damage resulting from any cause beyond the control of PCI. Marking or retained images (sometimes called “burn-in”) resulting from the display of fixed images on video display products are not defects and are not covered under this warranty.

In certain instances, some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, or the exclusion of implied warranties, so the above limitations and exclusions may not be applicable.

WARRANTY SERVICE

If the product needs to be shipped for service, carefully pack (preferably in the original carton) and enclose a letter, ... authorized Panasonic Service Centre in your area or to Panasonic Technical Support and Product Services Department, 5770 Ambler Drive, Mississauga, Ontario, L4W 2T3. Shipping to the latter location requires a return authorization before shipment. No liability is assumed for loss or damage to the product while in transit.

THIS EXPRESS, LIMITED WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL PANASONIC CANADA INC. BE LIABLE FOR ANY SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES.

Disposal of Old Equipment and Batteries
Only for European Union and countries with recycling systems

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries must not be mixed with general household waste. For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points in accordance with your national legislation. By disposing of them correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment. For more information about collection and recycling, please contact your local municipality. Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

Note for the battery symbol (bottom symbol)
This symbol might be used in combination with a chemical symbol. In this case it complies with the requirement set by the Directive for the chemical involved.

Information on Disposal in other Countries outside the European Union
These symbols are only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

Notice (U.S.A. only)
Disposal may be regulated in your community due to environmental considerations. For disposal or recycling information, please visit Panasonic website: http://www.panasonic.com/environmental or call 1-888-769-0149.

Customer’s Record
The model number and serial number of this product may be found on its rear panel. You should note this serial number in the space provided below and retain this book, plus your purchase receipt, as a permanent record of your purchase to aid in identification in the event of theft or loss, and for Warranty Service purposes.
