

Revised version *only for China*

Revised on Jun.11th,2018
based on WD's Purple model No. change in March 2017.

* Revised WD Purple's Model No. are **in Red**.
WD divided the model No. in 2 types, one for "Except China" and others for "China".
This HDD compatibility chart is based on China model No.

Caution**To use 5TB or 6TB HDD with HDD canister****(WJ-ND400/WJ-HDE400/WJ-HD716/WJ-HD616/WJ-NX400/WJ-HXE400)**

Please **DO NOT** fix two screws into bottom side of **5TB or 6TB HDD** (⇒ marks below), because screw length is longer than depth of tapped hole .

(10 Jul 2017, correction of errors)

Very Important Notification for Compatibility of Panasonic NVR/DVR's with AF (Advanced Format) HDD's

ND400	HD616/716	HDE400	Note
V3.20 or above	V2.30 or above	V1.20 or above	These versions are compatible with AF HDD's. (AF HDD has 4K-byte data in one sector, while legacy HDD has 512byte in one sector.)
V3.10 or below	V2.20 or below	V1.07 or below	These versions are not compatible with AF HDD's. If AF HDD will be installed into DVR's/NVR of these older versions, lack of recorded image/video, frequent restart of recorder, or some unexpected troubles may happen.
