

## **PANASONIC WV-ASF950 FACE RECOGNITION SOFTWARE**

---

### **License issue procedure from WV-ASF900 to WV-ASF950UG**

*This document describes the upgrade procedure from WV-ASF900 to WV-ASF950 using the WV-ASF950UGW license.*

*Panasonic requires information about the current WV-ASF900 license and Activation card details of the new WV-ASF950UGW license. We will then issue a new license for the WV-ASF950 server.*

#### **UPDATE PROCEDURE**

1. Provide the following 3 items to your dealer or Panasonic Sales Company.
  - a. The current *MPR ID* and *Registration Key* of WV-ASF900, WV-ASFE901, WV-ASFE904.
  - b. *Registration ID* and *Activation Key No.* of WV-ASF950UGW (from the Activation key card).
  - c. *MPR-ID*, *Activation key No.* and *Registration key No.* of the current cameras.  
**Note: This is only required if you are replacing the face detection cameras.**
2. Panasonic will generate new licenses for WV-ASF950, WV-ASFE901 and WV-ASFE904. New licenses will be issued for each face detection camera if changed.
3. Access the KMS Server <https://kms.business.panasonic.net/ipkms/pc/home.htm> and use new license details (Registration ID and Activation Key No.) to issue Registration keys for WV-ASF950, WV-ASFE901 (and WV-ASFE904 if used).
4. Install WV-ASF950 and register the license of WV-ASF950/ WV-ASFE901/ WV-ASFE904.

**[note] The old WV-ASF900 license cannot be used anymore.**
