10. Use only attachments/accessories specified by the manufacturer.

Disposal of Old Equipment and Batteries

For European Union and countries with recycling systems

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries must not be mixed with general household waste. For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points in accordance with your national legislation.

For more information about collection and recycling, please contact your local municipality. Reusing a product or a battery can save resources and reduce pollution. Please consult your local legislation

Note for the battery symbol button symbol please read the included instruction manual.

About notations

About the user manuals

The function of the double jack box is available when using the model WV-S2130 / WV-S2110.

About the installation procedures

The following notations are used when describing the functions limited for specified models.

Step 1 Fixing the attachment plate

Step 2 Remove the enclosure from the camera

Step 3 Making connections

Step 4 Mount the camera

Step 5 Adjust the camera

Step 6 Configure the network settings

WARNING:

To prevent injury, this apparatus must be securely attached as described in the installation instructions.

For proper ventilation, ensure that the apparatus is installed in accordance with the installation instructions.

To avoid electric shock, do not expose this apparatus to rain or moisture.

The apparatus should not be exposed to dripping or splashing.

No objects filled with liquids, such as vases, should be placed on the apparatus.

All work related to the installation of this product should be performed by a qualified service person or system integrator.

Observe all applicable rules and regulations for wiring and testing.

The installation must be carried out in accordance with all applicable local installation codes.

If any changes or modifications are made to this apparatus, it could invalidate the person’s authority to operate the equipment.

The equipment is not intended for use in locations where it is likely to be exposed to excessive heat such as near a heating duct or in bright sunlight.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

1) Keep these instructions. 2) Heed all warnings. 3) Follow all instructions. 4) Do not use this apparatus near water. 5) Clean only with dry cloth. 6) Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions. 7) Do not use near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat. 8) Do not defeat the safety purpose of the polarized or grounding-type plug. 9) Use only attachments/accessories specified by the manufacturer. 10) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

Troubleshooting

Before requesting service, refer to the Important Information (included in the CD-ROM) and “Troubleshooting” in the Operating Instructions (included in the CD-ROM) and confirm the trouble.
Step 3 Making connections

- Refer to the Important Information on the provided CD-ROM for details about each cable.
- As necessary, use a cable tie (locally procured) to tie the cables together.
- The AC power supply shall be insulated from the commercial AC power.

[Diagram of connections]

Step 4 Mount the camera

- Align the OPEN mark of the camera side panel with the tab of the attachment plate, insert the attachment mounting screws into the attachment plate, and rotate the camera by approximately 15°. The LOCK mark is moved to the tab projection of the attachment plate and the camera is temporarily secured.
- Do not connect 2 wires or more directly to a terminal. When it is necessary to connect 2 or more wires, use a splitter.
- Connect the Johnny's plate to the DC power jack of the camera.
- Connect the camera cables to the provided CD-ROM for further information about the EXT I/O terminal settings.

[Diagram of camera mounting]

Step 5 Adjustment

1. Turn on power to the camera.
2. Loosen the pan table fixing screw.
3. Adjust the zoom and focus.
4. Press the mark on both sides of the inner cover to the place where it was removed, install the inner cover to the place where it was removed.
5. Connect the MONITOR OUT conversion plug (accessory).
6. Adjust the zoom and focus by repeating steps 3 and 5.

[Diagram of camera adjustment]

Step 6 Configure the network settings

- The default setting of user authentication is “On”. For further information, refer to the Operating Instructions.

[Diagram of network configuration]

Step 7 Important Information

- The default setting of user authentication is “On”. For further information, refer to the Operating Instructions.

[Diagram of network configuration]

- If the launcher window is not displayed, double-click the “CDLauncher.exe” file on the CD-ROM.
- Refer to “Using the CD-ROM” in the Operating Instructions on the provided CD-ROM for further information about CDLauncher.

[Diagram of network configuration]

- Click the [Run] button next to [IP Setting Software].
- If “IP Setting Software” is not displayed, click the [Network Setting Software] button.

[Diagram of network configuration]

- Select the camera you want to configure (3), and click [Network Settings] (4) to change the network settings. Then, click [Access Camera] (5).

[Diagram of network configuration]

- When the administrator registration window is displayed, enter “User name”, “Password”, and “Re-type password” by following the instructions displayed on the screen, and then click the [OK] button.
- Please set [Time & date] on the [Basic] screen of “Setup” before using the camera.
- Please set [Point & click PC] on the [Advanced] screen of “Setup” before using the camera).
